Notice

The American Academy of Dermatology Council on Educational Affairs has approved educational activities at the XV International Congress of Dermatology in Mexico City, October 16-22, 1977, for Category I credit on an hour-for-hour basis for the American Academy of Dermatology Continuing Medical Education Award. In order to receive credit from the Academy, American dermatologists should follow closely the pertinent directions that will be among the documents they will receive at the time they register at the Congress Building in Mexico City.

It is important for American dermatologists to be aware of the fact that credit will only be given if 60 percent of members of the Academy of Dermatology who attend the International Congress send their evaluation cards back to the Academy.
